

The FR3 crossover motorhome combines the best features, family friendly livability and affordability of an easy to drive Class C motorhome with the space, convenience and styling of a Class A motorhome.

The FR3 crossover motorhome offers flush floor construction for a smooth transition from the cockpit to the living area. Driver and passenger seats have the ability to become part of the entertainment rooms with an easy swivel. The carpet-free surface also provides a pet-friendly environment. Radius ceilings throughout the coach increase headroom for a more open, relaxed living space. Contemporary furnishings and deep 32" sliderooms with attractive woodgrain enhance the residential appeal. Upgraded LED interior lighting throughout extends the life of your battery substantially.

The media center provided in the dash includes an AM/FM/CD/DVD/Bluetooth/USB that can stream music from a smart phone or bluetooth-capable device indoors or out. The kitchen includes a deep double bowl stainless steel sink, microwave, 3-burner cooktop and a large oven. Oversized dinette seating and windows offer an excellent view with side windows in the deep slideout for cross-ventilation.

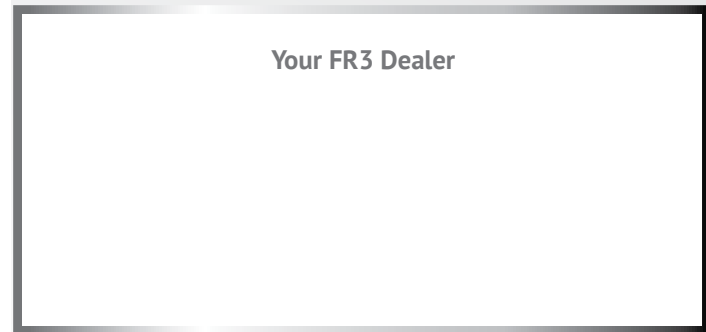

The FR3 crossover motorhome features a well-lit bedroom with a large rear window for plenty of natural light and a reading light over the King-sized bed [72" x 80" residential bed].

PRE-DELIVERY INSPECTION FACILITY

20,000 square feet of quality assurance. The bare essentials for a premium product. This state-of-the-art facility gives immediate daily feedback to production for quality assurance in every unit built.

Forest River, Inc. encourages our customers to purchase their Forest River products from a local dealership whenever possible for the following reasons:

- 1) Forest River, Inc. dealers are independently owned and operated businesses so priority service and scheduling is at their discretion and is often provided to customers that purchased their unit at that dealership.
- 2) Purchasing locally allows customers to establish meaningful relationships with a dealer, enhancing the RV experience through assistance with product questions, user tips or RV regulations for your state or country, and much more!
- 3) Canadian customers must meet requirements to bring an RV purchased out of the country to their home. These requirements may involve additional inspections and certifications, taxes and fees. Your local Canadian Dealer is a professional at meeting these requirements.
- 4) Scheduling timely warranty repairs and adjustments through a local dealership provides far greater flexibility and convenience to you, the customer!

It is the goal of Forest River, Inc. that all of our RV owners fully enjoy the RV experience and that customer satisfaction meets or exceeds their expectations!

Styling Appointments

FR3's crossover styling offers even more room for your sleepy guests by offering large 32" deep slideout rooms that accommodate a deep wrap-around booth dinette and large Hide-A-Bed sofa with integrated footrest [A1, A2]. A power front bunk is hidden against the ceiling above the driver/passenger seats. With the push of a button, you can convert your Class A motorhome into the styling of a Class C motorhome up front [B].

The ergonomic cockpit cab area [B] features both a power front sun visor and manual pull-down side shades for extra privacy and comfort. The molded automotive style dash has an integrated side and rear vision backup camera display for enhanced safety. A pull-out laptop station with a 110v outlet for power is available at the passenger's seat.

"Super Storage" exterior cargo compartment at the rear of every FR3 model provides pass-through molded storage bins for your belongings [C].

The exterior plumbing bay is equipped with an outside shower, compartment light, black tank flush and enclosed water hook ups. Forest River, Inc.'s Arctic Package is standard on the FR3 for cold weather camping [D].

GVWR (Gross Vehicle Weight Rating) – The maximum permissible weight of the unit, including the Unloaded Vehicle Weight (UVW) plus all fluids, occupants, cargo, optional equipment and accessories. For safety and product performance, do not exceed the GVWR.

GCWR (Gross Combined Weight Rating) – The maximum total weight of the loaded unit, plus a tow vehicle. This includes the weight of both the unit and tow vehicle, fuel for each, all other fluids, cargo, occupants, optional equipment and accessories.

GAWR (Gross Axle Weight Rating) – is the maximum permissible weight, including cargo, fluids, optional equipment and accessories that can be safely supported by each axle.

Each Forest River RV is weighed at the manufacturing facility prior to shipping. A label identifying the unloaded vehicle weight of the actual unit and the cargo carrying capacity is applied to every Forest River RV prior to leaving our facilities.
